

# Khansaheb Sykes LLC

## Dewatering Installations Supervisor (Rental Division)

Location: UAE

### About the Company:

With over 30 years' experience in the UAE, Khansaheb Sykes is the number one specialist for Dewatering and the hire and sale of Pumping Solutions. With massive experience of groundwater control, as well as general pumping, our specialist knowledge sets us apart from the competition, and has led to our involvement in major infrastructure projects, such as the Shindegah Tunnel Crossing, Jebel Ali Port and Dubai Dry Docks.

A subsidiary of Andrews Sykes Group, the UK's largest specialist hire company, our business is founded on the expertise and know-how of Sykes Pumps, which celebrated its 150th anniversary in 2007.

With operational bases in Abu Dhabi, Dubai and Sharjah, we have plans for further growth across the Middle East, and would like to hear from suitably qualified and experienced people looking to join a progressive and professional operation and be part of our continuing success.

### Job Description:

- Supervision and Execution of Dewatering Projects for the Rental Division
- Allocation and supervision of site staff
- On-site staff training
- Preparing Bill of Quantities based on actual site requirements
- Maintaining Plant Utilisation reports
- Coordination of site engineers
- Responsibility for site progress and troubleshooting

### Requirements:

- Must be fluent in both written and spoken English; some knowledge of Arabic would be an advantage but is not essential.
- Strong technical knowledge and experience in Dewatering Systems and Pump applications
- Minimum of 2 years' resident experience in the Middle East
- Excellent skills supervising a culturally diverse workforce
- Driving Licence essential

**To apply:** Please send your CV/resume and a covering letter to [ksykes@khansahebsykes.com](mailto:ksykes@khansahebsykes.com)
